

## COUNTERTOP OPTIONS

### **NATURAL STONE:**

- Unique visual character, made only by nature
- Very good heat resistance
- Natural pores in the stone requires yearly sealing
- Seams are somewhat visible

### GRANITE

Moderately porous  
Very Hard: Scratch and Chip resistant  
Everyday food & acids won't damage the surface

### MARBLE, LIMESTONE & TRAVERTINE

Very Porous - more vulnerable to staining  
Fairly Soft: Shows hairline scratches, prone to chipping with hard wear  
Everyday food & acids will etch the surface

### **MANMADE MATERIALS:**

- Uniform color & pattern throughout entire slab
- Non-Porous: Stain resistant, no sealing or maintenance required
- 10 year Manufacturer's Warranty

### CAESARSTONE

93% Quartz content (similar properties to granite)  
Extremely scratch resistant  
Very good heat resistance  
Seams are somewhat visible

### CORIAN

Fairly Soft: Shows hairline scratches, prone to chipping with hard wear  
Ability to fully integrate Corian sinks and cove backsplash  
Repairable if cracked or broken, scratches may be sanded
